

# DROP CAMP EQUIPMENT SUPPLIED AT BASE CAMP AND FOOD SUGGESTIONS

We will like to meet your group the afternoon/evening prior to your groups start date. We would like to pick up all of your food and the majority of your gear at that time.

Pack easy to serve meals. You will be tired after being outdoors all day. Weight and bulk of food items is a concern when loading horses. See list below for what we will be providing for you. Medium sized ice chests(55 quart) can be packed on a horse.

Below are suggested food items that may work for your group. Allowing horses to take your gear in allows for a few more luxuries.

Main Dishes-Meats can be packed into camp in an ice chest. Ice is heavy and takes up valuable space. Instead, freeze all meats ahead of time to pack in. Cured meats such as hams will keep fresh longer.

Side Dishes-Boxed noodles, stove top stuffing and rice mixes are light weight and easy to fix side dishes. Some canned goods such as vegetables and fruit can be packed in.

Lunches-Lots of pocket stuffers such as dried fruit, nuts, candies and cookies. Bread, lunch meats, condiments are great. Chips, powdered drink mixes and instant soups help round out your lunches when in camp.

Breakfast-Instant hot cereals, just add water pancake mix, syrup. Eggs and breakfast meats can be packed into ice chest.

## **Don't Forget:**

- water filter
- hot drinks & powdered drink mixes
- sugar/creamer
- dish & hand soap
- spices and condiments as needed
- foil
- ziplock
- garbage sacks
